# User Acceptance Testing (UAT) Template

Project Overview:

Project Name: Implement Client Script & UI Policy (Incident)

Project Description: ServiceNow Incident form validation and dynamic field control using UI Policies and Client Scripts.

Project Version: Not specified

Testing Period: 3 October 2026 (execution date; start/end period not specified)

Testing Scope:

- High Impact UI Policy and UI Policy Actions.
- Assigned To mandatory validation for High Impact incidents.
- Urgency read-only behavior for High Impact incidents.
- Automatic Urgency = High on Impact change to High.
- Save prevention when Assigned To is missing for High Impact incidents.
- Blocking State changes through list editing.
- Allowing State updates through the Incident form.

Testing Environment:

URL/Location: ServiceNow Incident application (specific instance URL not specified)

Credentials (if required): Not specified

Test Cases:

| Test Case ID | Test Scenario | Test Steps | Expected Result | Actual Result | Pass/Fail |
|---|---|---|---|---|---|
| TC-001 | High Impact makes Assignment group mandatory | Set Impact to 1 – High; review Assignment group | Assignment group becomes mandatory | Observed as specified in project testing | Pass |
| TC-002 | High Impact makes Urgency read-only | Set Impact to 1 – High; try to edit Urgency | Urgency is read-only | Observed as specified in project testing | Pass |
| TC-003 | Auto-set Urgency | Change Impact to High | Urgency is set to High and info message appears | Observed as specified in project testing | Pass |
| TC-004 | Prevent save when Assigned To is missing | Set Impact to High; leave Assigned To empty; save | Save is blocked and error is shown | Observed as specified in project testing | Pass |
| TC-005 | Save after Assigned To is filled | Set Impact High; fill Assigned To; save | Record saves successfully | Observed as specified in project testing | Pass |
| TC-006 | Reverse behavior after | Change Impact from High to | Assigned To is no longer | Observed as specified in | Pass |

| | | | | | |
|---|---|---|---|---|---|
| | lowering Impact | Medium | mandatory and Urgency becomes editable | project testing | |
| TC-007 | Block State list editing | Edit State directly from list | Alert appears and change is rejected | Observed as specified in project testing | Pass |
| TC-008 | Allow State form update | Open Incident form and update State | State update is allowed through the form | Observed as specified in project testing | Pass |

Bug Tracking:

| **Bug ID** | **Bug Description** | **Steps to reproduce** | **Severity** | **Status** | **Additional feedback** |
|---|---|---|---|---|---|
| BG-001 | No open defect identified in the supplied project testing results. | N/A | N/A | Closed / No defect reported | Testing results indicate expected behavior. |
